Project:	WAH for Hospital (WAH4H)	
Team Name:	Pseudoers	
Team Members:	Nicolas, Jhon Lloyd R.	Quibin, Elijah Josh R.
	Jajurie, John Kenneth L.	Chavez, Mariyah Vanna Monique C.
Presentation:	2025-10-13	
Term and Academic Year:	Term 1, 2025-2026	

Component	Panelists	Recommendation	Plan of Action	Status
Data Flow Diagram (DFD)	Ms. Rhea Valbuena	The DFD must be revised to accurately reflect the specific hospital's operational workflow (e.g., the Cuyapo process) rather than the internal system architecture.	Update the DFD to align explicitly with the established Cuyapo Hospital process model	Done
Project Charter Scope	Ms. Rhea Valbuena	The Project Charter's operational scope is overly broad. It must be narrowed from general "hospital operations" to focus precisely on a defined area, such as inpatient hospital operations, for better	We will clarify in the upcoming presentation that the scope is strictly focused on inpatient hospital operations to establish clear project boundaries.	Done

		project focus and feasibility.		
Data Flow Diagram (DFD), Activity diagrams with swim-lanes, Fully Dressed Use Cases	Ms. Rhea Valbuena	The Data Flow Diagram, Swimlane Diagram, and Use case must use consistent naming conventions for all corresponding elements.	update the Swimlane roles to accurately and validate the revisions for alignment before final submission.	Done
